Textile Mills
Paper Industries
Government Facilities
Wallpaper and Floorcoverings
Animal By-products
Rubber and Synthetics
H.M. Prisons
Soap and Detergent Manufacturers

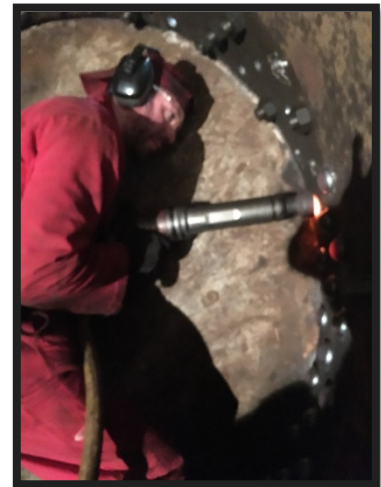

Traditional Hot Riveting Skills

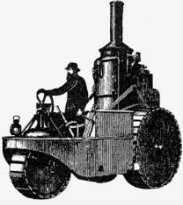

The skill of putting in hot rivets is one which is no longer taught, unless you are lucky enough to work at one of the last remaining boilermakers in the country.

At McEwen Boilermakers we pride ourselves on the fact that we are still able to offer a full mobile hot riveting service, as well as undertaking all manner of hot riveting work as part of boiler rebuilds at our works.

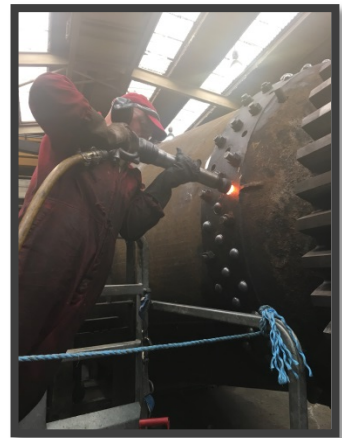

We are one of very few companies who can travel all over the UK and Ireland and carrying hot-riveting in almost any location. Examples of previous hot-riveting contracts include:

- ▶ Rivet Replacement on Structural Steel Work
- ▶ Rivet Replacement on Pressure Vessels
- ▶ Hand Riveting
- ▶ Manufacture of Specialist Rivets

"Many thanks for getting the locomotive boiler repaired... all went smoothly and was a tribute to the professionalism of everyone involved. The locomotive was back in operation for Easter and has done about 15 days service so far this year."
